

# Question Time - please post a question in advance

How can GM facilitate funding of GP leads and neighbourhood funding once TM funding ceases. Roles are crucial as are relationships but some finance directors are asking for ROI type evidence which is frustrating

How are we engaging Junior Doctors in Devo Manc, if at all?

Safety - what are the panel's view on how we address the difference in approach to safety in different parts of the health and care sector? e.g difference in reporting, investigating and learning from incidents. Availability of safety data

CQC - is there a return on investment and what % of providers improve as a result of inspection? E.g. How much does it cost to inspect Manchester FT and have the inspectors found anything the system was unaware of?

Will community pharmacy inspection ever come under the CQC to marry up all the primary care providers to provide a locality map of quality provision and identify which providers need to be supported?

Question to Tim CQC Who is that magnificent organisation you talked about as being outstanding, how can we learn from them?

# Question Time - please post a question in advance

When the term 'people' is used does it include young people?

8

8

9 7 8

What support is there or provided by CQC for organisations that have been inspected and need some help and direction. What resources are available? Or are you just a policing organisation?

How can GM support the significant gap of Mental Health Nurses being trained.

What does the panel feel about GMC's action on Bawa Garba - does this regulatory body believe in "no blame culture" ?

Agree with model of appreciative enquiries to enhance pt safety, this is restricted by external factors such as Coronial Inquests that almost expect the Trust to identify failings / blame in its investigations and if not a reg 28 is often issuer .
